Set in the town of Travnik, *Bosnian Chronicle* presents the struggle for supremacy in a region that stubbornly refuses to submit to any outsider. The era is Napoleonic and the novel, both in its historical scope and psychological subtlety, Tolstoyan. In its portrayal of conflict and fierce ethnic loyalties, the story is also eerily relevant. Ottoman viziers, French consuls, and Austrian plenipotentiaries are consumed by an endless game of diplomacy and double-dealing: expansive and courtly face-to-face, brooding and scheming behind closed doors. As they have for centuries, the Bosnians themselves observe and endure the machinations of greater powers that vie, futilely, to absorb them. Ivo Andrić's masterwork is imbued with the richness and complexity of a region that has brought so much tragedy to our century and known so little peace. Skyhorse Publishing, as well as our Arcade, Yucca, and Good Books imprints, are proud to publish a broad range of books for readers interested in fiction—novels, novellas, political and medical thrillers, comedy, satire, historical fiction, romance, erotic and love stories, mystery, classic literature, folklore and mythology, literary classics including Shakespeare, Dumas, Wilde, Cather, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Waiting for Elijah is an intimate portrait of time-reckoning, syncretism, and proximity in one of the world's most polarized landscapes, the Bosnian Field of Gacko. Centered on the shared harvest feast of Elijah's Day, the once eagerly awaited pinnacle of the annual cycle, the book shows how the fractured postwar landscape beckoned the return of communal life that entails such waiting. This seemingly paradoxical situation—waiting to wait—becomes a starting point for a broader discussion on the complexity of time set between cosmology, nationalism, and embodied memories of proximity.

The basic tenet here is that we do not translate words, but texts, and that these competing models can be integrated into a more global theory of translation by viewing the translation process as a primarily textual process. The authors examine in detail the characteristics that make a good translation a text, focusing particularly on the empirical relationship between the theory of translation and its practice.

Waiting for Elijah

Starting from the critical notion that we should be asking questions of contemporary importance - and that 'importance' itself must be defined - Anthony Pym sets about undoing many of the currently dominant models of translation history, positing, among much else, that the object of this history should be translators as people, that researchers are subjectively involved in their object, that cultural systems are based on social will, that translators work in intercultural spaces, and that a model of cooperation through negotiation may be applied to the way translators (and researchers!) work between cultures. At the same time, the proposed methodology is eminently constructive, showing how many empirical techniques can be developed and applied: clear illustrations are given of corpus selection, working definitions, deceptive statistics, and the construction of networks and regimes, incorporating elaborate examples drawn from medieval and modernist fields, as well as finding space for notes on practical problems like funding research. Finding its focus in historical debates, this book cannot help but create contemporary debate: its arguments seek not only to revitalize the historical study of translation but also to develop the wider concerns of intercultural studies.

What is Sufism? Contemporary views vary tremendously, even among Sufis themselves. Contemporary Sufism: Piety, Politics, and Popular Culture brings to light the religious frameworks that shape the views of Sufism's friends, adversaries, admirers, and detractors and, in the process, helps readers better understand the diversity of contemporary Sufism, the pressures and cultural openings to which it responds, and the many divergent opinions about contemporary Sufism's relationship to Islam. The three main themes: piety, politics, and popular culture are explored in relation to the Islamic and Western contexts that shape them, as well as to the historical conditions that frame contemporary debates. This book is split into three parts: • Sufism and anti-Sufism in contemporary contexts; • Contemporary Sufism in the West: Poetic influences and popular manifestations; • Gendering Sufism: Tradition and transformation. This book will fascinate anyone interested in the challenges of contemporary Sufism as well as its relationship to Islam, gender, and the West. It offers an ideal starting point from which undergraduate and postgraduate students, teachers and lecturers can explore Sufism today.

Archaeology, as with all of the social sciences, has always been characterized by competing theoretical propositions based on diverse bodies of locally acquired data. In order to fulfill local, regional expectations, different goals have been assigned to the practitioners of Archaeology in different regions. These goals might be entrenched in local politics, or social expectations behind cultural heritage research. This comprehensive book explores regional archaeologies from a sociological perspective—to identify and explain regional differences in archaeological practice, as well as their existing similarities. This work covers not only the currently-dominant Anglo-American archaeological paradigm, but also Latin America, Western and Eastern Europe, Asia, and Africa, all of which have developed their own unique archaeological traditions. The contributions in this work cover these "alternative archaeologies," in the context of their own geographical, political, and socio-economic settings, as well as the context of the currently accepted mainstream approaches.

This book highlights the unique history and cultural context of retranslation in Turkey, offering readers a survey of the diverse range of fields, disciplines, and genres in which retranslation has assumed a central position. Further, it addresses largely unexplored issues such as retranslation in Ottoman literature, paratextual positioning and marketing of retranslations, legal retranslation, and retranslation in music. As such, it makes a valuable contribution to the growing body of research on retranslation by placing special emphasis on non-literary translation, making the role of retranslation particularly visible in connection with politics and philosophy in Turkey.

Translation as Text

At conferences and in the literature on community interpreting there is one burning issue that reappears constantly: the interpreter's role. What are the norms by which the facilitators of communication shape their role? Is there indeed only one role for the community interpreter or are there several? Is community interpreting aimed at facilitating communication, empowering individuals by giving them a voice or, in wider terms, at redressing the power balance in society? In this volume scholars and practitioners from different countries address these questions, offering a representative sample of ongoing research into community interpreting in the Western world, of interest to all who have a stake in this form of interpreting. The opening chapter establishes the wider contextual and theoretical framework for the debate. It is followed by a section dealing with codes and standards and then moves on to explore the interpreter's role in various different settings: courts and police, healthcare, schools, occupational settings and social services.

The Politics of War Memory and Commemoration

Opening a long-closed window into the 1960s Communist Eastern Bloc, *Motel Trogir* explores the history and planning culture that produced a modernist utopian architecture in Yugoslavia. Conceived and built in 1965 by renowned architect Ivan Viti during a period of increased transit tourism, the motel stands by a highway on the Dalmatian coast. A fine example of 20th-century modernism, the motel is in a derelict state today due to unresolved property issues, and stands as a reminder of the former political economy. In 2013, to help rescue the buildings from development, Loose Associations, an association for contemporary artistic practices, argued for protection of the motel as a valuable architectural work. In this modest publication, ample historical images and informative texts tell the story of 1960s socialist Yugoslavia, its tourist architecture and planning as reflected in Viti's Adriatic motels, and the turbulent decades that have followed as the architectural culture is caught between the socialist agenda and market forces.
